	17:15	Light Meal & Networking	
	19:00	End of Event	

Know-how Exchange & Standardization

Applying MBSE & Benefit

(Future)Solutions

Learnings

- Requirements against products are increasing: CASE, Mass Transport, etc.
- Products as a System
- From product to services (vehicle to mobility)
 - The value of cooperation: Single manufacturer cannot rule the world
 - Collaboration, load- and risk-sharing between manufacturers is essential
 - Cut down costs
 - Free resources for innovation
 - Standardize major modules/architectures, keep away from the tiny details
 - prostep ivip offers a neutral, globally acting and established platform

Thanks to ...

... you!

... all speakers!

... NTT Data!

... interpreters!

For your Attention ...
