# Timeline: JT in Change

COM/FOX CATIA ↔ JT and CATIA ↔ STEP AP242 / JT

# Summary: COM/FOX Converter Solutions

CATIA ↔ JT and CATIA ↔ STEP AP242 / JT

## LEADING FUNCTIONALITY

- Support for CATIA V5 and 3DEXPERIENCE (CATIA V6).
- customized solutions and process support.
- COM/FOX solutions for CATIA - JT /STEP AP242 are leading in terms of functionality, quality and support.

## SUPPLIER INTEGRATION BASED ON STEP AP242 XML / JT

- Support for ISO Standard STEP AP242 XML.
- Convert CATIA V5 Kinematics to STEP AP242 XML with JT.  
For Daimler Suppliers and enabling Daimler to import and replay the kinematics in NX.
- Support of the JTIAP V2 (JT Industrial Application Package V2).

## JT DRIVER

- Enriched JT data with meta data, for a smooth operation in further processing at OEMs.
- Optimization of geometry for import in NX.
- T-Systems with COM/FOX drives the JT technology:  
About 120 enhancement requests for the JT format and the JT Toolkit filed at Siemens, enhancing the efficiency of JT usage.

**Thank you !**
